

Project Name

Middle Oconee West
Trunk Improvements
Phase 1

Project Category

Rehabilitation and
Replacement

Project Cost

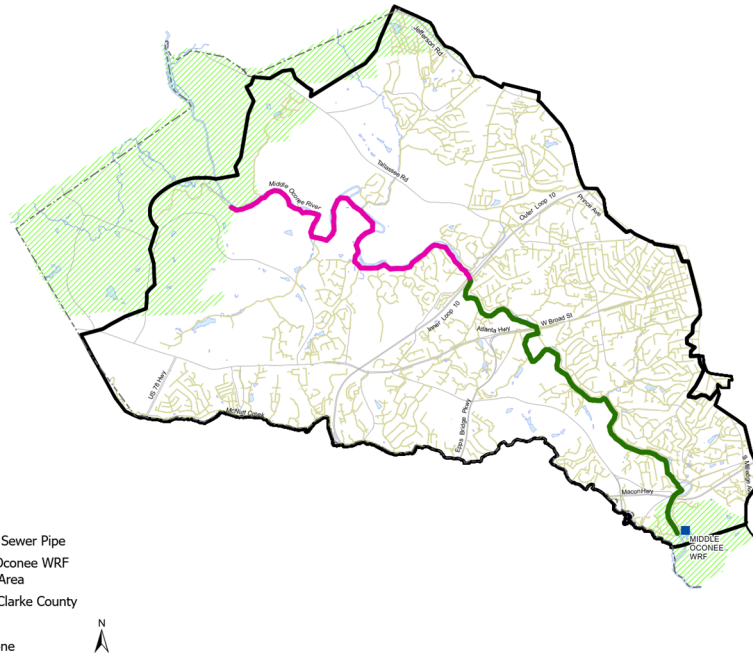

Phase 1:
\$17,200,000

Key Elements

1. Rehabilitation of 29,800-LF of existing sanitary sewer (SS) pipe
2. Improved sewer flow capacity due to reduction of infiltration and inflow

Legend**Phases**

- Phase 1
- Future
- Existing Sewer Pipe
- Middle Oconee WRF Service Area
- Athens-Clarke County
- Roads
- Rural Zone

**Project Description**

This project includes the first phase of rehabilitation of 58,000 LF of sanitary sewer Trunk Line in the Middle Oconee West within the Middle Oconee WRF sewer basin. Sewer capacity will be increased due to reducing the amount of groundwater infiltration and stormwater inflow to the collection system.

Phase 1:

- Rehab 29,800 LF of existing 30" diameter SS pipe

Future Phases:

- Rehab 13,900 LF of existing 24" diameter SS pipe
- Rehab 14,300 LF of existing 20" diameter SS pipe
