

Athens-Clarke County Public Utilities Department
2025 Capital Improvements Element

Project
3-308

Project Name

PUD Plant Facilities
Rehabilitation and Replacement

Project Category

Rehabilitation and
Replacement

Project Cost

\$15,000,000

Cedar Creek WRF

Middle Oconee WRF

Key Elements

1. Upgrade, repair, and replacement projects at PUD's water treatment and water reclamation facilities.

North Oconee WRF

J.G. Beacham WTP

Project Description

Upgrade, repair, and replacement projects for critical equipment and treatment processes at the following facilities:

- J.G. Beacham Water Treatment Plan
- North Oconee Water Reclamation Facility
- Middle Oconee Water Reclamation Facility
- Cedar Creek Water Reclamation Facility

Additional Notes

This project covers all vertical assets at all four plants and remote sites. The \$15,000,000 is covers upgrades, repairs, and replacement projects over 5 years.

Based on historical expenditure, the Public Utilities Department anticipates spending \$3,000,000 a year to ensure plants maintain permit, protect public health, and plan for preventive maintenance. This includes pump repairs, equipment overhauls, and upgrades to an aging infrastructure.
