

Athens-Clarke County Public Utilities Department

2025 Capital Improvements Element

Project
5-302

Project Name

Athena Industrial Park Recycled Water Transmission Line

Project Category

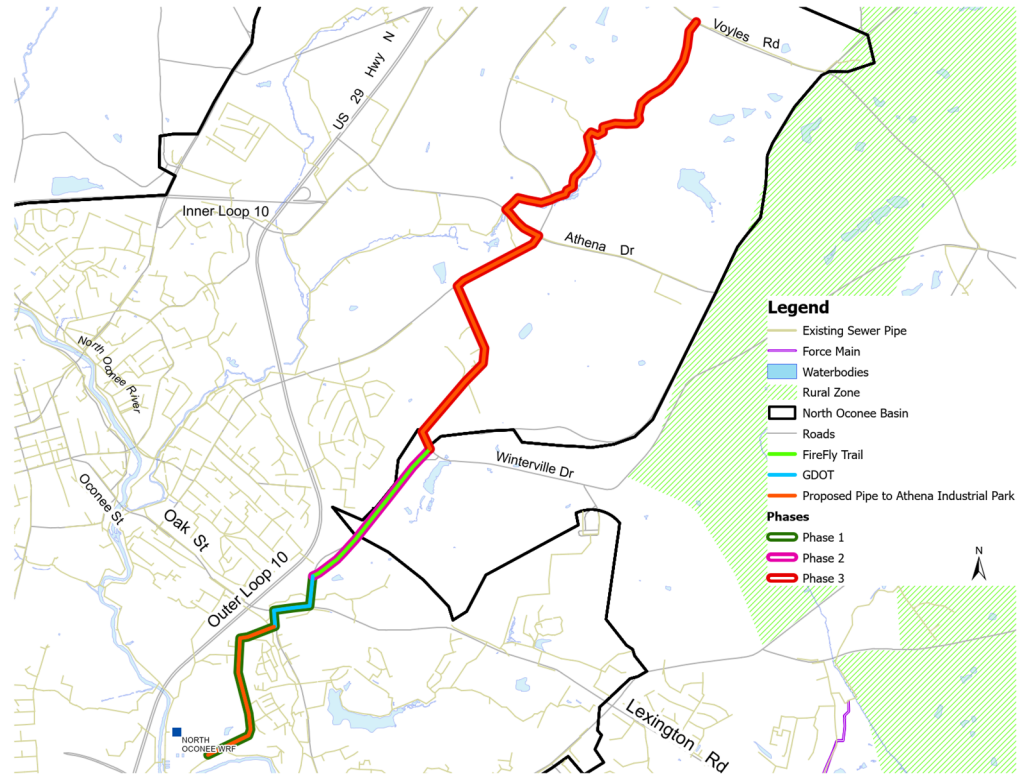

System Extension

Project Cost

\$19,200,000

Key Elements

1. Recycled water transmission pipeline from North Oconee WRF to Athena Industrial Park
2. Increases water supply and reduces potable water demand
3. Improves drought resiliency

Project Description

Recycled water reuse transmission line originating from North Oconee Water Reclamation Facility and ending in Athena Industrial Park on Voyles Road. The project will reduce potable water demands by PUD's industrial customers.

- Phase 1 begins at North Oconee WRF and ends near Lexington Rd.
- Phase 2 begins near Lexington Rd and ends near Winterville Rd. The pipeline easement follows the same alignment as the FireFly Trail.
- Phase 3 begins near Spring Valley Rd and ends near Voyles Rd.
