

**TRANSIT**  
Avoid the fuss. Ride the bus!

# BUS-n-BIKE

Athens-Clarke County Transit “Bus n’ Bike” program makes daily commuting easier, safer, and more convenient for cyclists. There is no extra charge to bring your bike along which can reduce your commute time and make public transit more accessible. Bike racks are attached to the front bumper of each bus and can hold up to three bikes.

## LOADING INSTRUCTIONS:

### 1 Lower Rack

- It is very important to *get the driver's attention* before you load or unload your bike.
- As the bus approaches, have your bike ready to load. Remove water bottles, pumps, or any loose items that may fall off.
- Approaching from the curbside, squeeze the handle and lower the rack with one hand while supporting the bike with the other hand. Confirm it is locked in place.

### 2 Load Bike

- Lift your bike and place it into one of the rack's open wheel trays. Each tray is labeled for front and rear wheel.
- Please use available slots closest to the bus first. All bike positions are completely independent of each other, making it easy to load or unload bikes with others already loaded in the rack.

### 3 Secure Wheel

- To secure the bike, simply pull the tension loaded support hook out and over the front tire. The handle should be placed as close to the front brake and head tube as possible to ensure safety and security of the bike.

## UNLOADING INSTRUCTIONS:

- Let the driver know you are getting your bike.
- Raise the support hook off the tire and move it down. Lift your bike out of the rack.
- If there isn't another bike on the rack, return the rack to the upright position and confirm it is locked in place.
