ResponseID	Response
14	I work night shift. If I could utilize ACC government offered childcare during the day, when I sleep, that would be very helpful. I currently work 12 hour night shift then go home to my care for my 3 yr old. I'm luck to 3 hrs of sleep.
16	.
18	More often than not I have to take off any one day school holidays to care for my children. I cannot afford every day off school program for two kids that we in Leisure Services offer. Also, I am dreading this summer- I have no idea how to coordinate two different aged children in different one week camps all over the county. This will require me to miss work here and there as well as time adjust just to get them and pick them up.
26	Finding childcare for children under four in Athens is either extremely expensive or really questionable, if you have to consider cheaper options. There is no in between. It's a real detriment to those of us who want to work to provide for our families. Why work just to give your entire paycheck to someone else for watching your child? Might as well just stay at home.
38	My wife currently works as a nanny, rather than a planner of Oconee County, because it was more cost beneficial for us at the time. She gets paid much less now, so that puts a strain on our finances. I do think that if ACC could offer an "affordable" childcare option, she could work in a more fulfilling job and it could certainly help our quality of life.
39	I only need childcare during the summer
44	this would be a benefit to all the employees who have childcare needs.
46	I have been worried since being pregnant that I may have to stop working I March when I have a my baby. My mother in law is the cheapest care we could find but she is old and I am not sure if she can handle a new born baby 5 days a week.
47	THIS WOULD BE INCREDIBLE!
49	Having adequate childcare would help when extra coverage is needed for staff shortages by allowing employees to readily available
57	I live 35 min away to to have a place for my children to be closer to my place of work would give me much better piece of mind.
58	Even if ACC gave a worker allowance towards daycare weekly it would help out a lot. Currently my child goes to a limited hour daycare because its all I can afford. Most daycares run between \$185-\$200 per week and that's just not affordable on a single parent income.
59	There is a need for less expensive childcare. If the county government could offer a childcare option it would help offset not getting a raise as my childcare expense would be cheaper.
62	Thanks for allowing the input.
66	I been having a hard time to find who can take care of my baby and I can not afford a regular daycare who charge around 200 hundred dollar per week I wish we can have daycare for CC employees thank you
72	After school and childcare for when schools close for "bad weather". I miss work when school is closed. Holidays from school and/or teacher work days also.

ResponseID Response

76 If it was included as a free service I would definitely be retained as an employee and desire to stay. Even if it was just drop off (eg. wife has doctor's appointment or is sick, etc.) that would not require me to take off of work to watch my son.

79 Summer is when we typically have to utilize alternative child care options; It'd be nice if ACC offered employees discounted rates for summer camps.

80 After school care is a big issue for me every school year. I think this would help ease the worry.
