

# Water Properties @ HOME

## ACTIVITY 1

You Will Need:

- Cup of water
- Eye dropper or pipette
- One dry penny

How many drops of water can you  
fit on the penny before they  
spill over the edge?

Prediction:

Actual:

## ACTIVITY 2

You Will Need:

- Roughly 50 pennies
- Cup of water filled to the VERY top

How many pennies can  
you slip into the cup before  
it spills over?

Prediction:

Actual:

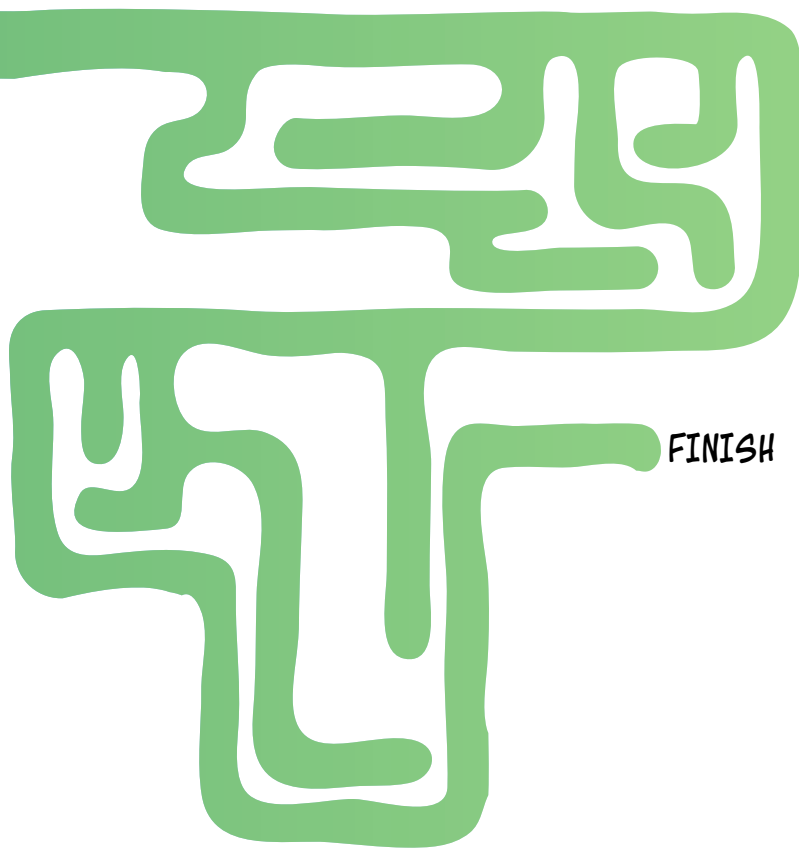

## ACTIVITY 3

START

You Will Need:

- Eye dropper or pipette
- Cup of water
- A maze covered in wax paper (use ours or create your own!)

See how far through the maze you can guide a drop of water! Try with the pipette, a straw, or your finger.

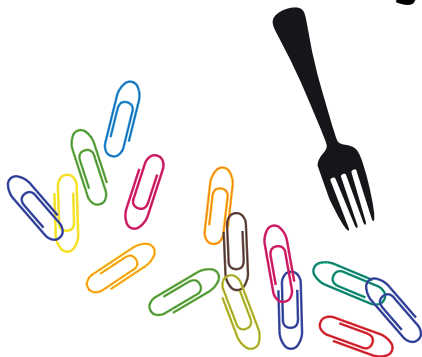

## ACTIVITY 4

You Will Need:

- Cup of water
- Paper clips
- A fork

How many paper clips can you float in one minute?

Prediction:

Actual:

Challenge a friend or a guardian on any activity to see who is a water magician!

Visit [ThinkAtTheSink.com](http://ThinkAtTheSink.com) to watch a "Water Properties" video that demonstrates each activity.
